Cargo E-Bikes

EB299S	Dual-battery fat-tire utility e-bike	A 20-inch utility e-bike with two battery packs, fat tires and front and rear suspension.	Drive: 48V 250W rear hub Battery: 2 × 48V 15Ah Tires: 20 × 4.0 in
--------	--------------------------------------	---	--

City E-Bikes

EB213M	Compact internally geared city e-bike	A compact 20-inch steel city e-bike with front-hub assistance, torque sensing and internal three-speed gearing.	Drive: 24V 250W front hub Battery: 24V 5Ah Transmission: Internal 3-speed
EB260L	500 W mid-drive city e-bike	A 26-inch torque-sensing city e-bike with a 48 V mid-drive system, suspension fork and hydraulic braking.	Drive: 48V 500W mid-drive Battery: 48V 13Ah Control: Torque sensor
EB263L	Rear-hub city e-bike	A straightforward step-through city e-bike with wide tires, suspension and a familiar derailleur drivetrain.	Drive: 36V 250W rear hub Battery: 36V 10.4Ah Control: Speed sensor
EB264L	Torque-sensing city e-bike	A comfortable 27.5-inch step-through combining mid-drive assistance, suspension and hydraulic braking.	Drive: 36V 250W mid-drive Battery: 36V 10.4Ah Control: Torque sensor
EB291L	Mid-drive belt city e-bike	A clean 28-inch city e-bike with torque sensing, belt drive and an internally geared hub.	Drive: 36V 250W mid-drive Battery: 36V 15Ah Transmission: Belt · Nexus 8
EB292L	Low-maintenance city e-bike	A rear-hub city e-bike pairing an integrated frame with belt drive and automatic internal gearing.	Drive: 36V 250W rear hub Battery: 36V 10.4Ah Transmission: Belt · automatic 2-speed
EB293L	Low-step automatic belt city e-bike	A low-step rear-hub city e-bike with a rigid fork, belt drive and automatic internal two-speed gearing.	Drive: 36V 250W rear hub Battery: 36V 10.4Ah Transmission: Belt · automatic 2-speed
EB297G	Automatic two-speed city e-bike	A 27.5-inch rear-hub city e-bike with an integrated-stem display, rigid fork and automatic internal gearing.	Drive: 36V 250W rear hub Battery: 36V 10Ah Transmission: Automatic internal 2-speed
EB303L	Single-speed belt city e-bike	A torque-sensing 27.5-inch city e-bike with a rigid fork, belt drive and integrated-stem display.	Drive: 36V 250W rear hub Battery: 36V 13Ah Transmission: Single-speed belt drive

EB312L	Torque-sensing Nexus 5 city e-bike	A 27.5-inch mid-drive city e-bike with torque sensing, an adjustable stem and a five-speed belt drivetrain.	Drive: 36V 250W mid-drive Battery: 36V 10Ah Transmission: Belt · Nexus 5
EB68M	26-inch front-hub city e-bike	A steel-frame city e-bike with front-hub assistance, torque sensing and a single-speed chain drive.	Drive: 24V 250W front hub Battery: 24V 5Ah Transmission: Single speed

Electric Off-Road Motorcycles

DB1	Light electric off-road motorcycle	A compact mid-drive off-road motorcycle with hydraulic suspension, a high-carbon steel frame and 17-inch wheels.	Maximum power: 2.3 kW Battery: 48V 28Ah Reference range: Up to 70 mi
JUNGLE LITE	Reference-model electric dirt motorcycle	A high-output 72 V mid-drive reference model with off-road suspension, mixed wheel sizes and hydraulic braking.	Drive: 72V 8 kW mid-drive Battery: 72V 35Ah Tires: Front 19 in · rear 16 in

Fat Tyre E-Bikes

EB220S	20 Ah fat-tire e-bike	A 20-inch fat-tire e-bike with a high-capacity battery, suspension fork and adjustable stem.	Drive: 48V 250W rear hub Battery: 48V 20Ah Tires: 20 × 4.0 in
EB224S	Retro fat-tire e-bike	A low, long 20-inch architecture with a bench-style seat and a simple rear-hub drivetrain.	Drive: 48V 250W rear hub Battery: 48V 13Ah Tires: 20 × 4.0 in
EB225S	Compact fat-tire e-bike	A compact fat-tire e-bike with a conventional saddle, rear rack and rigid steel fork.	Drive: 48V 250W rear hub Battery: 48V 13Ah Tires: 20 × 4.0 in
EB234S	13 Ah rear-suspension fat-tire e-bike	A 20-inch retro fat-tire e-bike with a rigid steel fork and a rear suspension shock.	Drive: 48V 250W rear hub Battery: 48V 13Ah Tires: 20 × 4.0 in
EB239S	Rear-suspension retro fat-tire e-bike	A 20-inch retro e-bike with a rigid steel fork, wide tires and a rear suspension shock.	Drive: 48V 250W rear hub Battery: 48V 15Ah Tires: 20 × 4.0 in
EB309S	Full-suspension retro fat-tire e-bike	A 20-inch retro e-bike combining a suspension fork, rear suspension shock and wide tires.	Drive: 48V 250W rear hub Battery: 48V 10.4Ah Tires: 20 × 4.0 in

Light Electric Motorcycles

JUNGLE	23 kW electric dirt motorcycle	An aluminum mid-drive electric dirt motorcycle with long-travel suspension for demanding off-road use.	Maximum power: 23 kW Battery: 84V 50Ah Top speed: 100 km/h
--------	--------------------------------	--	---

Long Tail E-Bikes

EB217T	Dual-battery 24-inch longtail	A larger-wheel longtail with two battery packs, a rigid fork and an optional front rack.	Drive: 48V 250W rear hub Battery: 2 × 48V 12Ah Tires: 24 × 2.3 in
EB249T	Passenger-ready longtail e-bike	A compact 20-inch cargo e-bike with included rear passenger hardware and room for market-specific accessories.	Drive: 48V 250W rear hub Battery: 48V 15Ah Tires: 20 × 4.0 in
EB262T	Compact utility longtail	A versatile cargo e-bike with included rear guardrail, footrests, cushion and backrest.	Drive: 48V 250W rear hub Battery: 48V 15Ah Tires: 20 × 3.0 in
EB267T	Dual-battery utility longtail	A larger-wheel cargo e-bike with torque sensing, belt drive and two battery packs.	Drive: 48V 250W rear hub Battery: 2 × 48V 15Ah Transmission: Belt · automatic 3-speed
EB307T	Full-suspension fat-tire longtail	A 20-inch fat-tire longtail with front and rear suspension plus an included rear passenger equipment set.	Drive: 48V 250W rear hub Battery: 48V 15Ah Tires: 20 × 4.0 in

Mountain E-Bikes

EB155M	27.5-inch mid-drive mountain e-bike	A torque-sensing mountain e-bike with a 27.5-inch aluminum frame, suspension fork and seven-speed gearing.	Drive: 36V 250W mid-drive Battery: 36V 10.4Ah Tires: 27.5 × 1.95 in
EB204M	Full-suspension 500 W mountain e-bike	A 29-inch full-suspension mountain e-bike with a torque-sensing 48 V mid-drive system and nine-speed gearing.	Drive: 48V 500W mid-drive Battery: 48V 12Ah Transmission: Shimano 9-speed
EB265M	Full-suspension 29er mountain e-bike	A torque-sensing 29-inch full-suspension mountain e-bike with an air fork and ten-speed gearing.	Drive: 36V 250W mid-drive Battery: 36V 14Ah Transmission: Shimano 10-speed
EB305M	29-inch mid-drive mountain e-bike	A torque-sensing 29-inch mountain e-bike with a lockout hydraulic fork and hydraulic disc brakes.	Drive: 36V 250W mid-drive Battery: 36V 13Ah Tires: 29 × 2.35 in
